## MONROE TOWNSHIP, NEW JERSEY

- OWNER:

Saint Peter's University Hospital

- ARCHITECT/ ENGINEER:

Lighthouse Architecture  
Philadelphia, Pennsylvania

- SERVICES:

General Contracting

Sweetwater completed the multi-phased expansion and renovation of this occupied adult daycare center within a mixed-use complex. Space increased from 5,000 to 8,200 square feet, and included the construction of a parlor with fireplace, craft room, movie area with projection screen, food service, 2 dining areas, nursing room, quiet room, offices, employee lounge, 5 single bathrooms and 2 with multiple stalls. Scope included the installation of a new sprinkler system throughout.

Special focus on infection control was made with measures such as HEPA-filtered fans, and the isolation and sealing of the existing HVAC system from occupied areas.
