General Contracting

Sweetwater oversaw the renovation and alteration of interior residential space within this senior care community. The 5,000 square-foot, third floor work created new common and ancillary areas for the Memory Support Residences. The scope was to construct a rotunda and dining room with fireplace, kitchen, activity rooms, server, spa tub room, consultation, wellness, offices, laundry and corridor, includes demolition, electrical, mechanical, plumbing, and finishes. The work was executed with the highest regard to occupants and staff.
