- Construction started June 2016
- Construction completed August 2017
- Upgrade of select imaging suites in 2 locations
- 1,500 square feet
- Posen Architects

Challenge:

Heavy renovations within operating healthcare facilities are very challenging and complicated. Pre-task planning and coordination are essential in ensuring the construction area is not contaminating adjacent services and hospital staff is prepared to accommodate patients elsewhere if necessary. Infection control must be applied flawlessly and construction guidelines performed to exacting standards, as control officers are on hand daily to monitor.

Highlights included:

- Merit Shop
- Working with many stakeholders and officials
- Working while in occupied and operating healthcare facilities
- ICRA standards applied for high risk construction
- Solid construction to accommodate heavy equipment and finishes
- Tight supervision and synchronization of trades and equipment delivery in busy healthcare facilities
- Completed on-time and on budget
- Security monitoring with subcontractors
- 0 DART and no safety infractions
